@@sonicfan9144 Mm. I didn’t like any of them. In “Designated heroes”, they make the heroes look like a bunch of bumbling idiots, and it’s totally unfair that Sonic gets punished for being mean to his friends when THEY’VE all been mean to him and he just let them get away with it. In “Don’t judge me”, I hate the part where Knuckles goes on a big rant where he calls Sonic a bunch of insults, and it’s obnoxious that the idiot villagers trust Eggman over Sonic.

@@sonicfan9144 I’m particularly ticked off by the ending of “Just a guy”. His friends are a bunch of self-righteous hypocrites. Knuckles insults Sonic and acts like he’s better than everyone else ALL the time and he always just gets away with it, but the one time Sonic does it, it’s wrong? And in “Just a guy” Amy and Knuckles spend the whole episode insulting Sonic and lecturing him that he should be a better person, and they don’t apologize. But does Sonic get revenge in them? No. Totally unfair.

@@sonicfan9144 And one more thing about “designated heroes”, this might sound negative, but it’s dumb that Sonic’s friends are happy when they beat Eggman by working together. What’s so great about that? They couldn’t beat him alone, THAT would be something to celebrate. And Sonic WOULD have won if he hadn’t fallen asleep. He’s still better than the rest of the heroes, because at least HE needed to be ASLEEP for Eggman to win. And he didn’t fall for any stupid tricks, like Amy and Tails being dumb enough to give Eggman their weapons.

@supersonicfan7514 | 2021-07-05 20:22:38 #33
@@sonicfan9144 You know, there are 3 things that I hate about Sonic Boom. 1. People constantly did bad things and got away with it. Eggman, the villagers, Knuckles, Amy. It literally happened like a hundred times. 2. Sonic was treated like garbage. He constantly got insulted, framed, blamed, beat up, unappreciated, and treated with a double standard. 3. Even though they’re supposed to be friends, the members of Team Sonic act like jerks to each other. Most of the mean moments come from Knuckles and Amy. There are some episodes where the so-called “best friends” spend the entire story fighting, like “translate this”, “just a guy”, “fire in a crowded workshop”, and “designated heroes”.

SatAM has its share of flaws, but it deserves props for what it tried achieving back then. It had a good cast of characters, a surprisingly bleak tone for a children's series, and a cool fantasy/sci-fi setting to explore. Had the show been made in the early-mid 2000s, it probably would've been more successful.
The only thing SatAM seemed to struggle with was the humor; which was pretty weak at best. But to be fair, almost all of Sonic's media outings struggled with finding humor. "Boom" is the only one that managed to succeed in that department thus far.

Yeah, that's actually a good way to describe it. And I imagine a lot of that was due to conflict behind the scenes. Of course SatAm is the closest a cartoon has ever really been to the cannon of the Archie comics, and considering how convuluted the lore of those is I imagine it was probably difficult to get all the creators to agree. I do know that one of the comics creators, Ken Penders is why we never got a season 3. He tricked Sega into thinking Ben Hurst and the DiC team were trying to co-opt the Sonic franchise. But now I'm just quoting one of Patmac's videos 😅

@@FlyingDuckMan360 I mean, it's probably what's gonna happen at this point, we've got so much TTG oversaturation at this point that it's just kinda sad. The show would've honestly not have bugged me so much if it was a show with a normal airtime but they just had to push it so much that it has run for so long and for so much of the time that it has 6 seasons,2 movies, andway too many specials and counting. Infinity Train got shafted to Max and so did Summer Camp Island, the continuation of AT has fully been on there, and I'm sure Mao Mao will make it onto there for the majority of its time running too with how little CN has pushed the show. HBO Max is probably the future of CN shows that CN regularly doesn't push as much. I only hope that that means that OK KO can get a revival there since they did revive AT and give a continuation to SU (probably unlikely though since CN refuses to admit that they cancelled the show and that the show is actually over).

While that may be true, don't forget about how far Eggman has gone in the past to conquer the world and be overall evil. This series was as big a stain on Sonic as the reception of Rise of Lyric. I still cannot fully like listening to Roger Smith as Sonic (especially after the legendary performances that was Jason Griffin) without envisioning his lines coming from Boom Sonic's mouth.

Everyone in this series is like a negative portrayal of everyone, the harshest being for Sonic and Knuckles. Strangely though, this version of Amy is not as big a nuisance as her game portrayal self and wished she was more like this. Boom ruined a lot in terms of Sonic's image and I won't change my thoughts on that...especially when the episodes probably had really stupid premise to them. Sonic X is the better Sonic franchise, same goes for the shows that came before this, bet that Sonic Prime will be better than Boom

La voce di Tails devo capire come fai a dire che è stridula, è vero, la doppiatrice di Amy è la stessa di X (vuol dire che era una buona scelta), mentre gli assistenti di Eggman erano sì decerebrati ma comunque le loro voci non erano niente male

WARNING: this comment is a very long passionite rambling about the Sonic Boom subset franchise and how it can actually be brought back. Enjoy I guess!

Sonic Boom deserved better. It really did.
It's a DAMN SHAME that the two prequel games overshadowed the Archie book and especially the TV show due to their poor reception. If you look at Boom as a hole, it's really not that bad at all; half of what it offers is good (TV Show, Archie book, Fire and Ice, Dash 2), the other half. . .wellyougettheidea. I argue that most of what Boom offered was rock solid, and was slowly improving over time when it was still active.
Season 2 of the show is where Boom was indeed really starting to find its footing. I mean for fuck sake, the show actually was nominated a good few time and won some awards because of how good it is; depite the piss poor treament from Cartoon Network (which I'll never forgive them for that) in the U.S, it was actually doing really well in other countries, so why stop here?!? Why stop a show that (I can safely say) most Sonic fans adore?! It was honestly a mistake that SEGA put the show on Cartoon Network, a channel at the time that really only cared about that one show that I will not name because it's been talked about to death. . .and they still to a degree.
Sonic Boom still has so much untapped potential. . .and I really want it to reach that potential. It has proven that it can improve. . .and it can get even better if it comes back. . .which there is a possibility that it will:

10:14
Here's the thing about Bill Frieburger; yes, the people behind the show has indeed disbanded. HOWEVER. Bill Frieburger actually did state that even though they're no longer involved with Boom, that DOESN'T mean they won't be back for a 3rd season and beyond. So. . .there's that.
With that in mind, there's is a possibility to bring it back. How? . . .the recent DVD and digital releases of the show. Sonic Boom now has two DVDs out currently (and possibly more that we don't know of yet), and is also available in its entirety digitally on iTunes and Amazon. If guys want to see Boom come back as much as I do, speak with your wallet and GO BUY THESE RIGHT NOW! It worked with Family Guy, it could work here. Not saying that it's a 100% guarantee that this will work, but it's worth a shot, and really. . .you never really know with the Sonic franchise; it's unpredictable at this point. I would love to see more come out of Boom, not just the show.

I 100% agree. I'm very, very sad that the show was overshadowed by the games due to the terrible reception it received. Although I agree that the games were bad, the show is far better than the games in terms of writing. I never gave the Sonic Boom comics a chance because at the time, I was avoiding them after reading about the whole Ken Penders situation between SEGA and Archies that made me dislike that guy. People who were avoiding the show and the comics really never gave them a chance. :(

66

@socraturtles7648 | 2019-06-01 22:09:59 #2
@@geoffreyrichards6079 In the episode "Eggman's brother" they reference Ken's illogical restriction that no Sonic characters can have any type of relative because he wrote so many for them already in the comics. Morpho makes a joke about this by saying he isn't really Eggman's brother as he said earlier and then goes on for a few seconds explaining how he isn't related to anyone at all (https://www.youtube.com/watch?v=brdQNwzjeR4 you can see it here at 8:27). It's kinda subtle and you'd only notice it if you already knew about it, but considering the Boom comic also made fun of him by making Knuckles wear a bunch of hats (Ken also said characters weren't allowed to have accessories, or something along those lines, but he only said Knuckles wasn't allowed to wear "A" hat, not "multiple at once", so they used a loophole to get around that) then it wouldn't be too far-fetched to think it's also a reference.

@@socraturtles7648 Hmm... I dunno. It seems like too much of a stretch to say it was mocking Penders' specifically. It's more likely spoofing the idea of lookalike siblings in general, whether it be the "long-lost sibling" cliche or the lazy designs. And the thing with Knuckles' hat seems kinda weird when the OVA had him wearing a hat as well.

@@socraturtles7648 that's interesting. Where do you find all these rules? I was wondering why the show reminds us every time we see Steve, several times per episode that "he's not (his) brother, he's a shape-shifting robot built by (him) in an alternate dimension" I thought it was just for kids who just caught this random episode and had no idea who Steve was, and it may be, but that gives it an extra layer. Also explains why Sticks is the only one with a confirmed relative, since she's exclusive to Boom.

They didn't make fun of Chris Chan.
During the production of that episode, the staff of Sonic Boom researched more of the general fandom rather than the Sonic fanbase specifically. Mark the Tapir in particular was designed with the general fan-type character in mind rather than a specific person.
Executive producer Bill Freiberger said and I quote "Mark is 100% NOT based on Chris Chan. He is a general fan type. We've done many blue arm jokes in the series. Not a clue."

It reminds me of Gumball in terms of how people reupload the same tired jokes. As much as I love the feminist Knuckles joke, its not the only thing the show can do well.
Also I'm glad you showed the higher quality clips as opposed to the ones in SD with the Boomerang logo (though I see why people would do so). And I thought I was the only one who thought the animation downgraded somewhat in S2, at least some of it.

I really love Sonic Boom. I honestly wish they will still make a season 3. There's still a lot of ideas that can be cool. For example, the way Tails is treated sometimes for his inventions by the gang and the village; mostly the gang Amy, Knuckles and Sticks mainly Sticks and I hate to say it but also by his own best friend Sonic, Tails could change and go against them as payback for not giving him credit or at least help him feel better when something goes wrong with an invention like the episode of the crazy circus kidnapping everyone except Tails, because he was pushed away for a mistake. I know things turn around but think of what if Tails one day got tired and really hurt that he joins the dark side and Eggman's team to get back at them for it.

I feel like the boom designs work on Amy and tails cause they fit their personality, knuckles makes me feel uncomfortable and for sonic, I will admit that he'a more expressive but that's it I don't like the design of boom sonic. Eggman is 50/50, on the 1 hand it feels like Eggman but on the other it doesn't. In terms of personality I feel like almost all of them say for Eggman and Knuckles defines or improves on the original characters. I would prefer Eggman to smart, sinister , and serious (like the unleashed version and sometimes forces Eggman) rather than a Saturday morning cartoon villain and I would prefer knuckles to be Sonic X knuckles, not giving any fucks until he has to fight or gets angry.

@FlyingDuckMan360 | 2019-06-01 17:41:57 #225
Season 2 of Sonic Boom was where the show really grew the beard. The show's animation was more refined, there were more fourth wall jokes and nods to Sonic's fanbase (as well as take thats to the more insane parts, like Chris-Chan, the guy who maced a GameStop employee over the color of Sonic's arms), and more emphasis on story and character development.

Despite all the odds against Boom (the lackluster reception of the tie-in games and Christina Miller, president of Cartoon Network deliberately refusing to give the show the screentime it so rightfully deserved in favor of more Toddler Titans reruns), it became the longest-running Sonic cartoon at 104 episodes and was even nominated for a 2017 Teen Choice Award.

A third season was teased at the end of "Eggman: The Video Game: Part 2: The End of the World", with Shadow vowing to return and Eggman planning his next evil scheme, but thanks in part to Christina Miller and her obsession with Toddler Titans, there may never be one.

@@fusiion.cap01 I’m not saying you can’t ship Sonamy or sonally but neither sonally nor sonamy will be canon. Sally acorn isn’t canon... yet and sonic treats Amy like a nuisance (which is actually very rude). Sonally is a better relationship overall (again not saying you can’t ship sonamy)but sonamy boom has some chemistry. Sonic does not need romance but if sega really wants to they should pick sally. No, this show was fucking garbage. And THANK GOD it was cancelled.

I sit through a few episodes from both seasons, and by God, how the fuck can anyone call it funny or let alone "clever" ?

First season was mostly either generic cartoon plot tropes seen to death, with some major cringe inducing ones like the Justin Bieber parody or the one with the green guy.

Second season was even fucking worse,as they decided to go full Family Guy.

The characters are fucking obnoxious and unlikable, as they're all the same quip-spouting asshole with slight variations. Sonic especially was fucking unbearable, with Knuckles, Amy and the Marine rip-off immediately after.

"Slice of life comedy" is just not funny anymore. I don't give a shit about watching some dumb asshole struggling to buy a couch, while they mostly stand there doing nothing with awkward animation.

The jokes aren't fucking funny.

>HURR DURR DAT GAME SHOULD HAVE NEVER GONE 3D

Not funny.

Watching Sonic act like a depressed, lazy middle aged man for half the time is not funny.

Hearing Sonic and Eggman blabber on how they're worst enemies, only to have more than half of the episodes revolve on Sonic helping him is not funny.

Cringe-inducing Sonamy hint drops despite showing Sonic and Amy zero fucking chemistry outside of these lines is not funny.

A joke on feminists despite portraying Amy as a Mary Sue all the time is not funny.

This piece of shit of a show simply was not funny. And thank God it was cancelled, if it means spiting you fuckwads with no sense of humor.
Oh right, and Sonic Colors is basically a Boom pilot episode, asshole. You just have double standards.

I know you want to go easy on the game because you know the reason why. It doesn't excuse anything. They released it in this state with no chance to fix anything. It's so bad that bug fixes only made it MORE LAME. The game is actually shit. And they honestly expected you to sink more money into that shitheap to have more "fun" that shit would have tarnished the image of this game even if it was good.

It's a bad game. Don't hesitate to state that. Just say that there's a reason for why it's bad. And then leave it to the watcher to determine how harsh they want to be or want to play it themselves with this knowledge in mind. I hate when people hesitate to lambast an obviously comparable to 06 tier shit game. And they still tried to advertise it as not shit. So no the game is not free from criticism. Instead just expose the story and let the readers know. Showing the story at least exempts the creators from the backlash at least.

I didn't mind the redesigns at all. I mean, ok, not sure WHY knuckles is suddenly overly tall and buff, but it looks just fine. I don't think it's the best Sonic cartoon. It's definitely at one of the top three best, but not THE best. It's got sharp dialogue and great humor with some decent episode plots, but it doesn't really offer anything spectacular or new that we haven't already seen in most cartoons, the main characters feel like one-dimensional stereotypical portrayals of their video game counterparts, and it gets mean-spirited and annoying at times. Also, the animation in season 2 went really downhill compared to the animation of season 1.

Sonic X could've been great if they'd went with the "creatures and people exist in the same world" angle.
Instead the whole creatures from another world in ours was just endlessly cheesy.
Satam and underground-while lacking any humans besides Robotnik, at least work in their own right and don't try to have anything both ways. Sonic Boom is just nothing but a joke-any episode that isn't like the justin beaver episode is just as basic and boring as it gets.

Shadow would've been a cool opponent, since he's strategic, and dangerous.

Shame how the comic got cut short to play into a crossover no one wanted, or at least no one wanted so soon after the last one. Also with the except of Teen Titans GO, Cartoon Network tends to treat any show they do not own 100% poorly. Just look at the CGI Green Lantern series or Young Justice.

Correction: The worst Sonic cartoon.

Hey, let's radically redesign the core characters to look like nomad adventurers and have them sit down and do painfully unfunny generic sitcom stuff that literally any other animated comedy could accomplish. Yeah, the best one.

@wuffser | 2020-03-03 17:07:36 #434
You might not be paying attention to this but...NO. No you should not hold back. In fact you should be even more harsh on it. Then be even more salty about what it could have been. Especially since the cartoon and too an extent the comic was brilliant. You should be absolutely LIVID that Sega was so willing to fuck this company sideways. You should fucking DESTROY THEM for their stupidity.

Sega ironically pays attention to an extent and memes are one way to get their attention. By undershooting just how much they fucked up. You've doomed this series to well...nothing. You gave no shits. None not even enough to be reasonably angry and point out the millions of ways they could complement the sonic series. Now it's something else to cancel and others have to waste energy to revive something that should still be going strong.

Hate it for it's wasted potential. Despise the companies incometence, show disgust at Sega's weakness. When you tip toe around it trying to seem "Reasonable" you look like someone who doesn't really care. Showing the many ways SEGA fucked up is not autism it's better business sense.

Sometimes I think that Sonic Boom is just the future that happens after the ending of the Sonic game series. And that Sonic is mostly retired as a hero, Eggman by this point is still a villian, but not really an enemy/true threat.

EDIT: As well as Knuckles being stupid because of a battle injury that precedes the ending of the last Sonic game.

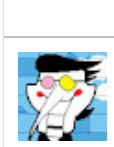
I'm sorry to say this, but the Season 2 finale, though it had a few highlights, completely bastardized Shadow.
He transformed from a mere nasty old Scourge the Hedgehog wannabe into full blown Caillou Destroys Shit and Gets Grounded levels of irredeemable asshole, by threatening universal destruction just because he got duped by a fucking YouTubePoop video Eggman showed him of Sonic "saying mean things" to him!
A complete insult to what he was once like in Adventure 2, Heroes and even in Sonic 06.



@spamtongspamton9900 | 2020-06-15 06:16:54 #491
Fun Fact: Just because Sonic causes a blur behind him doesn't mean he's as fast as the speed of sound, it just means he doesn't stay in or viewing range for more than 1/16th of a second, which can be easily performed, have you *ever* waved a pencil in front of you?

More like Sonic Boom Go. I honestly expected way better out of Sonic X when I went into it, it's way too generically odd of an angle for an anime based off sonic which sided with the two worlds thing and it just makes it not nearly as good as it should be.
While at least Satam and underground just went nuts with there concepts and made it fun for everyone.
Only episode I enjoyed was the justin beaver one over the things it tackled and the fact a girl spell effected him too, as well as the singing voice joke. It was just so savage. Usual actual character interactions are just as basic and boring as it gets.

"Best Sonic Show"

Coughs in Sonic X

But in all seriousness though, no matter how Sonic X's English dub wasn't very good, especially the 4Kids dub, Sonic X was my childhood and every morning at 7:30AM I would wake up and rush downstairs like a kid during Christmas and sit down on the couch to watch the show. And even though the Eggman in Sonic X isn't leagues closer to the Eggman in Sonic Boom, you gotta admit he still has some meme worthy moments. But yet, that's just me trying to defend Sonic X, since it was a cartoon that made my childhood that wasn't Fairly Odd Parents or Spongebob.

@@AlpsBulky this is pretty late but YouTube has a system where creators can go back in videos to edit parts after being uploaded (as far as I can tell, I might be wrong) which is how he cut out Cosmo's parts, as for the lack of a thumbnail change, it's probably because there was no point. Cosmo's off YouTube, they arnt associated anymore, and he doesn't appear in the video.

Cause if you have can’t put make a video about cause I don’t see how sonic boom is better (I know peopl have different opinions I’m just curious on your thoughts about it). But in case you never heard of it it was created by the same company behind the adventures of sonic the hedgehog (the wacky slapstick 1) and made in the same year but was surprising dark and mature. In this show dr robotnick took over the world with everything robotized, so sonic, sally and the rest of the freedom fighters try to dethrone him

You know why this show worked? Because it never took itself seriously. The Sonic franchise is wrought with painfully corny characters and over-the-top dialogue. There's still some corny moments on this show, but it's such a tongue-in-cheek show that pretty much anything goes. It's loose. There's no pretenses. But when it hits you with a good joke, it fucking HITS you. It's dumb but it's a good kind of dumb.

Unpopular opinion: I fucking despised that show... The only thing I liked about this was Eggman and character designs, the main reason I despised it was that I've watched Sonic X, and a sudden change to a mediocre sitcom was unbearable for me... But when I grown up a bit... It just became ok for me, Eggman carried this show on his shoulders (maybe that's why he's quite a bodybuilder in this show 🤔) he's God damn great

In my opinion and this is a very unpopular one. I think Sonic Satam is the worst Sonic cartoon because it's an incomplete vision. With the adventures of sonic the hedgehog and sonic boom they planned what they were trying to do and they did it. With sonic Satam they planned and they went halfway and it feels like an unfinished vision. A lot of the episodes in Sonic Satam have nothing to do with the overall plot

@Kian No it doesn't

@ShockwaveFPSStudios | 2022-06-26 23:14:28 (edited 2024-07-04 10:57:16) #2
@Kian SATam and Boom are completely different than the games. But you still hate them nonetheless because their not "GAME Accurate". (Sheesh, I bet he loves Sonic X is better than the other Sonic shows because of how much it's exactly like the games).

@ShockwaveFPSStudios | 2022-06-27 12:42:10 (edited 2024-07-04 11:02:57) #3
@Kian Because it’s an adaptation. And like an adaptation, you can make things different from the original source material. The only thing that stops it is if it’s for the best, or for the worst. Sonic Boom did it for the former.

Also Comic Book Movies get hated because of other things. It’s not just because it’s inaccurate to the original comics

@ShockwaveFPSStudios | 2022-06-27 18:42:42 (edited 2024-07-04 10:57:16) #4
@Kian It isn’t faithful, but it wasn’t supposed to be. Not all Video Game adaptations have to be faithful in order to be good. In fact, even faithful video game adaptations are bad. Look at the Ratchet & Clank movie, it’s faithful to the original games, but it was rushed from the beginning to the end. Not to mention it was criticized for cramping too many ideas.

@ShockwaveFPSStudios | 2022-06-27 18:54:57 (edited 2024-07-04 10:55:56) #5
@Kian Actually it’s the opposite.

@ShockwaveFPSStudios | 2022-06-27 19:49:32 (edited 2024-07-04 10:56:58) #6
@Kian No, what I mean is it’s the opposite of what you’re saying. It isn’t faithful, but that doesn’t mean it’s bad. Most adaptations like to be different from the original source material, and they’re good or even great. Some Video Game adaptations are no exception. That’s how Sonic Boom and SATam were well received by fans.

@ShockwaveFPSStudios | 2022-06-26 23:09:15 (edited 2024-07-04 11:02:56) #3
@Kian However, IGN was the one that misinterperated what Sonic is, and the characters. I remember when a lot of people hated the other Sonic characters because of how annoying they are. And this started, with IGN.

@ShockwaveFPSStudios | 2022-06-28 22:24:59 (edited 2024-07-04 11:02:57) #4
@Kian Boom didn’t even create misconceptions. I know that a lot of Sonic Fans say that Sonic characters got ruined (And between you & me, most of the reasons how Sonic characters got ruined always changed because of every comment.) but back in 2020, some fans believed that Colors & Forces ruined the characters.

Everyone talks about how great Eggman was but Sonic and Amy were also huge improvements. Sonic for once in idk how long acted like a teenager and even though Amy's personality is a cliché just like Knuckles, she actually pulls it off. Maybe it's because her standard stalker character was bad to where any any change was welcome while Knux suffered from a massive downgrade. Heck it's one of the only times where I'm okay with the Sonamy ship for the two were depicted to have chemistry

I wouldn’t say it’s the best Sonic cartoon but I did really like it. It’s one of my favorites, along with The Adventures of Sonic the Hedgehog and Sonic X. Although the show was great, I can’t say the same for the games though. Currently rewatching it on Netflix :)

@@jollama I have a minor nitpick, in several season 1 episodes, there some instances where the characters don't make a grunt or a scream. The japanese dub added those additional grunts and screams. I don't know if it was the English voice actors or something else, but it can be pretty wrong once you notice.

@@jollama it's something I noticed in both English & Japanese dubs. For example: in the episode "Hedgehog Day" when Amy saves Sonic from a fireball in the Japanese dub, she lets out a cute "Hi-Yah!" When she deflects it. But in the English dub, she's just silent. I don't know what happened in the recording studio, but it felt so weird.

Until this video, I had no clue a second season existed, or that the total amount of episodes was 104

In magasines, TV recordings, and Streaming services, it always said it only had 52 episodes.

One of the reasons why I love this show so much is because the humor reminds me of the ps2 era ratchet and clank games and its such a dream come true seeing it.

Pros:
SonAmy
Sticks as new character
Knuckles being funny rather than serious
Tails mechanical skills shown
Eggman both serious and funny
N
Unique episodes
Cons:
Shadow could've gotten better writing. He hates sonic for no reason instead they could've done sonic and shadows morals differing from each other and make them fight and later work together. Also his voice didn't fit he was way too edgy.
Tails rarely does anything when eggman attacks and gets saved he assumes he is doing sth. Sonic x amy is more useful than that.
Wish they made more seasons tough.

This series is more the laid back content for the Sonic fans. Sonic Prime got more to look for. Sonix X is still the one anime series that remains on the animation throne in all Sonic shows.
